### Applications & purposes

This adhesive tape is suitable for a wide range of applications, especially when a high load-bearing capacity is required at high temperatures or on difficult surfaces. The adhesive tape has an excellent adhesive strength as well as a very high tack. It is suitable for use on materials with low-energy surfaces, EPDM or rubber components and for fixing furniture parts or trims. In general, it can be used wherever a strong but thin and flexible adhesive tape is required.

### Characteristics

Adhesive type	Acrylate, modified
Carrier material	PET foil
Carrier colour	Transparent
Thickness (adhesive & carrier)	0,2 mm
Peel adhesion, adhesive strength	7,2 N / cm
Tensile strength	≥ 3 kg / 15mm
Release liner material	PE coated paper
Release liner colour	White
Temperature from/to	-30 °C to +120 °C
Food contact	not suitable

### Storage recommendation / Shelf life

Under normal storage conditions in a room climate (approx. 50% relative humidity & approx. 20 °C room temperature) the product in its original packaging has a storage period of at least 12 months after receipt by the customer.
