Applications & purposes

The permanent silicone glue dots made of pressure-activated hot melt adhesive have a particularly high initial adhesion. Due to the also very high resistance to shear forces, the permanent glue dots are particularly suitable for vertical bonding on almost all surfaces.

Benefits:

- Easy to apply
- Meets reach requirements
- High shear
- FDA approved for indirect food contact

Applications:

The glue dots are very suitable for sealing packaging or for permanent attachment of credit cards, samples, specimens on flyers and printed products.

Characteristics

Adhesive type	Hotmelt
Colour	Translucent
Adhesive strength	Permanent
Softening Point	+90 °C
Temperature from/to	-15 °C to +40 °C
Food contact	Indirect

Storage recommendation / Shelf life

Under normal storage conditions in a room climate (approx. 50% relative humidity & approx. 20 °C room temperature) the product in its original packaging has a storage period of at least 12 months after receipt by the customer.
